

BLOODY RIOTS IN GERMAN CITIES BETWEEN SOCIALISTS AND TROOPS

SOLDIERS USED BAYONETS IN ATTACK

Citizens Resisted Until Trampled, Beaten and Bayoneted Before Fleeing

SIX RIOTS IN CASSELL
WERE REPORTED TODAY

Neumenster Riot Was Fierce—
Socialists Lost Noses and
Ears in Fight

BERLIN, Feb. 16.—Socialists and their sympathizers gathered in the streets of Neumenster today and when they refused to disperse were charged by troops with fixed bayonets. Scores were taken to the hospitals suffering from horrible wounds, following a hand to hand conflict after the citizens had been driven at bay. Cavalry was used in breaking up the fight.

Only when trampled, beaten and bayoneted did the Socialists run. Many of the victims lost their ears and nose. The toll of blood paid here emphasized the protests of their delegates when the Prussian government adopted the new franchise bill. Dispatches received here from Cassel state that six riots had taken place there.

MADAME CURIE OBTAINS ATOM OF RARE POLONIUM

BERLIN, Feb. 16.—Mme. Curie, who with her husband, the late Professor Curie, discovered radium, has been successful in research in connection with polonium, an element which is described as 5000 times rarer than radium. She has succeeded in obtaining a tenth of a milligramme of the new element. She states that it possesses a radio-activity superior to radium. As against this, however, radium conserves its energy for an indefinite period, whereas polonium disappears rapidly.

PUBLISHERS WILL TRY FOR TEDDY'S RETURN BY WEST

DENVER, Feb. 16.—F. G. Bonfils and George Creel of the Denver Post and Kansas City Post, left Denver today for Khartoum, where they expect to meet former President Roosevelt on his way home. They will urge the former president to return home by way of the Pacific.

FIRST TRAIN SOON TO SPEED ITS WAY

Oregon and Washington Outline Route for Its Initial Through Train

SEATTLE, Feb. 16.—Local officers of the Oregon & Washington railway have confirmed the report that the Harriman system will soon run its first through train from Seattle to Chicago, routing from Seattle to Portland, to Pendleton, to Ogden, to Omaha, and thence to Chicago.

CONBOY CASE UP TO JURY
SAN FRANCISCO, Feb. 16.—Evidence in the trial of former Police Captain Conboy, charged with killing Bernard Lagan went to the jury at noon today. Conboy pleaded that he shot in self defense.

Butte Mines Close and 9000 Men Are Now Idle

BUTTE, Feb. 16.—Every mine around Butte, excepting the Silver Bow, the Berkeley and the Mountain Consolidated, suspended operations today as the result of an attempt of the Engineers' Union to separate from the Western Federation of Miners and organize a union to affiliate with the International Engineers' Union.

Miss Dolph's Suit Against Priestly Hall Is Dismissed

A reminder of a boom for a millionaire's seaside resort on the bluffs of the rocky shore near Aliso Canyon below Arch Beach came to the court house today, when a dismissal was filed in a civil suit brought by Miss Blanche L. Dolph against Priestly Hall. The litigants were well known Riverside people and the action grew out of papers signed by Hall in July, 1909, to H. J. Pullen, who planned to promote the millionaire's resort, which he laid out as a townsite and called it Coast Royal.

The tract concerned is 153.47 acres just below the mouth of Aliso creek. The property was in Priestly Hall's name. He gave Pullen a contract for the property, \$100,000 to be the price paid under the contract. Pullen laid

out the townsite elaborately, and planned an automobile road up the Aliso. Then came Miss Dolph's attorneys with a suit, asserting that Miss Dolph was a half owner with Hall in the tract. This suit was dismissed. Later another suit was commenced by Miss Dolph. Pullen's plans in the meantime having failed to develop. Miss Dolph asked that the court partition the property under her claim to a half interest in it. That suit is now settled.

Today a stipulation of dismissal was entered, and this same dismissal stated that the tract of 153.47 acres had been partitioned by the litigants. Priestly Hall and his wife have deeded a part to Miss Dolph, and Miss Dolph has deeded the remainder to Mrs. Hall.

WEDDED TWO WIVES ON THE SAME DAY

Mormon Just Dies After Living Over Fifty Years With Two Without a Quarrel

SALT LAKE, Utah, Feb. 16.—Abraham Wolf, a pioneer of Utah, died today in Hyde Park, leaving 153 descendants. He had the distinction of marrying two wives on the same day, under the rites of the Mormon church. In April, 1907, he celebrated his golden wedding, and boasted that he had never quarreled with either wife. He is survived by a family of 22 sons and daughters, and 153 descendants. He was an Indian scout of some fame.

MACKAY COMPANIES SELL TELEGRAPH STOCK

NEW YORK, Feb. 16.—It is announced that the Mackay companies will sell their holdings in the American Telephone & Telegraph Company, in deference to public opinion, which has been suspicious of the large holding of stock by a company in control of the Western Union Telegraph Co., fearing a merger.

The Postal Telegraph Company system will be continued as an independent system.

OUTLOOK FOR PACIFIC COAST DEFENSE IS BAD

WASHINGTON, Feb. 16.—The greater navy program, of two battle-ships a year to be added to the fleets until there shall be adequate fleets for both the Atlantic and Pacific coasts, is in danger of defeat at the hands of economists.

The petition of the Pacific Coast members for five torpedo boats a year for ten years will be defeated. The matter is yet in committee but the outlook is bad.

STANDARD DECLARES BIG DIVIDEND ON CAPITAL

NEW YORK, Feb. 16.—The Standard Oil Company yesterday declared a quarterly dividend of 15 per cent on its capitalization of \$100,000,000.

TWO BOY VICTIMS OF ADULT SHOOTING

Alabama Child Killed for Burglar—Oakland Boy Shot While Teasing Dog

MONTGOMERY, Ala., Feb. 16.—Taken for a burglar when he went to the home of Mrs. W. H. Pierson, to slip a valentine under the door, Eddie Bowman, aged 11, is dead today. The woman, who was alone, shot through the door, inflicting the fatal wounds.

Shot Six-year-old Boy

OAKLAND, Cal., Feb. 16.—Agelo Formecka, aged six, is near death today from a wound in the temple and the police are searching for the alleged shooter, Charles Barromeo. The boy was teasing a dog. A girl witness said Barromeo was angered and fired a shot presumably to scare the boy, but the shot accidentally struck the little fellow.

HOPE FOR "NINAS" SAFETY IS ABOUT ABANDONED

WASHINGTON, Feb. 16.—It has been learned that the tug sighted off Mauntau Point by the whaleback steamer "Ray View" was the tug "Apache" searching for the lost tug "Nina." There is little doubt that the "Nina" has foundered.

CHARGE HILL VIOLATING WHISKEY LAW

Proprietor of Poolroom Accused of Selling Whiskey on February 2

GIVES \$500 BOND
FOR APPEARANCE

City Officials Declare That
They Have Strong Case
Against Him

William O. Hill, proprietor of the poolroom at 213 West Fourth street, was arrested yesterday afternoon by Officer Murray upon a charge of selling whiskey. Hill was admitted to bail on a bond of \$500 on which G. W. Ford and Paul Knauf are sureties, Hill to appear before City Recorder Willson tomorrow morning at 10 o'clock to plead to the charge against him.

The complaint against Hill was filed in the city recorder's court yesterday afternoon. It is sworn to by Ed. Tedford, and charges that on or about Feb. 2 Hill, in violation of the city prohibition ordinance, sold "one kind of intoxicating drink, a spirituous liquor, to-wit, whiskey."

There was no search warrant issued in the case. City Attorney Heathman said the case is not that kind of a case. City officials declare they have the best case against Hill they have had to deal with. Just what the evidence is, they will not say.

VIDAL DAVIS SUICIDED

NATCHEZ, Miss., Feb. 16.—Vidal Davis, brother-in-law of Governor Chamberlain of Oregon, also of President Finley of the Southern Railway, suicided instead of dying of heart disease as reported.

SEINE RISES ALARMINGLY

Melting Snows and Heavy
Rains Swell River Waters
to Portentous Height

PARIS, Feb. 16.—The Seine is again rising and the flood situation is assuming an alarming aspect. Houses at Alfordville and other low lying parts are being deserted, the inhabitants moving to higher ground.

The general rains and melting snows at the head waters of the Seine and Marne are responsible for the rise. A further rise of four feet is predicted today, and it is possible that in the next four days the river may reach a depth of 24 feet, six inches less than the maximum depth at the time of the flood.

JAPAN TOO BUSY WATCHING RUSSIA TO MAKE TROUBLE IN PHILIPPINES

Taft to Give Congress "Jacking Up" on Bills

WASHINGTON, Feb. 16.—A special message to Congress, couched in careful language, will be sent by President Taft within a few days, unless congressmen get busy with his legislative program outlined at the beginning of the session.

It is intimated that the President is impatient because his suggestions

have been practically untouched in the eleven weeks of the session. Senator Beveridge, sponsor for the Arizona-New Mexico statehood measure, Senator Clark, introducer of the postal savings bank bill, and Senator Borah, who was entrusted with a number of the Taft measures, were summoned to the White House today for a conference with President Taft.

Reinart Lost \$500 In Deal With Man He Shot

Edward Reinart came out loser \$500 in the real estate deal that last March caused him to shoot C. N. Gary. Gary manipulated the deal that resulted in Reinart's property being deeded to Gary's cousin, Braman H. Loveless. Reinart expected to receive back a \$2000 mortgage, but instead Loveless gave a mortgage to Geo. W. Rainey of Los Angeles, for \$2500. Believing that he had been defrauded, Reinart shot Gary as the two were together in Attorney Forgy's office. One of the bullets fired by Reinart passed into Gary's abdomen and lodged in a lung. Gary was in the hospital for several weeks, his life often despaired of. He recovered. Reinart was prosecuted for an assault with a deadly weapon with intent to commit murder, but a jury brought in a verdict of acquittal. During the course of the trial.

Reinart's attorneys dug up much evidence concerning Gary's record in shady deals.

At the time of the shooting Reinart brought suit to rescind the deed given Loveless for the twenty-five acres in section 23, township 4 south, range 11 west, and to rescind the mortgage given Rainey. Rainey's answer was that he was an innocent party. The indications were that Rainey would make his position good in court.

A settlement of the cast has been made. Loveless deeded to Reinart the property that had caused the trouble. This deed was signed on Oct. 25, 1909, but was withheld from record until today. Today the deed was placed on record, and with it went another deed for the same

DR. BURKE'S FRIEND AND LAWYER QUILTS

Withdrew From Defense of
Doctor Accused of At-
tempted Dynamiting

SANTA ROSA, Feb. 16.—After several hours' conference with Dr. Burke, charged with attempting to dynamite Miss Luella Smith and her infant, at the Burke Sanitarium, Attorney J. W. Oates, a close friend of Dr. Burke, announced his withdrawal as counsel in the defense of Burke.

Oates at first refused to give his reason for withdrawal. He later said he was not a criminal lawyer, and handled only civil cases. His retirement is causing considerable comment.

The grand jury convenes tomorrow. District Attorney Hoyle has declared that the evidence in his possession is so strong as to warrant placing it before that body immediately.

PACIFIC FLEET SHIPS CLEAR OF SMALL POX

SAN FRANCISCO, Feb. 16.—Quarantine officials here today declared that they have uncovered no traces of small pox aboard the ships of the Pacific fleet from which the cruiser Washington was detached at Honolulu. All the other ships are clean.

HOPKINS INQUIRY MAY CLOSE TODAY

Mare Island Navy Yard Affairs
May be Probed as Result
of Explosion

LOS ANGELES, Feb. 16.—The naval board today continued its investigation into the boiler tube explosion on the Hopkins, which resulted in the death of Fireman Taylor and the injury of seven others, in secret. The board expects to complete the inquiry late today and return to San Diego on Friday, where perhaps the verdict may be published. The flotilla is lying in the outer San Pedro harbor, two miles off shore.

EXPLOSION MAY LEAD TO PROBE AT MARE ISLAND

VALLEJO, Cal., Feb. 16.—Though there has been deep official silence at the Mare Island navy yard as to the explosion on the Hopkins, there is intense interest regarding the result of the inquiry. The sending of an anonymous letter warning the officials that something was wrong with the boiler, and the subsequent finding of the tubes stuffed with trash, taken in connection with the explosion, may be the basis for an exhaustive review of the troubles and conditions which have prevailed recently in certain departments of the yard.

It is generally known that there has been trouble between the construction and engineering departments for a year.

IDEA OF STUFFED TUBES SAID TO BE ABSURD

SAN DIEGO, Feb. 16.—Dr. C. J. Holdman, in charge of the injured men of the Hopkins would not let the men talk. He said:

"The idea of any one stuffing the boiler tubes is ridiculous. If the blowers had been open only two men would have been burned, and perhaps not badly. Experts always open the blowers part way when there is sufficient steam to run them. Accidents such as this blowing out of a tube is occurring all the time and is nothing new."

RUSSIA WAITING FOR SWAT AT JAPAN

Mills Busy on Supplies for An
Army of Half Million—
Ready to Advance

JAPAN NEWSPAPER IS
TIRED OF ANTI-JAPANISM

Would Force United States to
Naturalization—Objects
to Hayes Bill

SAN FRANCISCO, Feb. 16.—A prominent naval officer, recently from the Philippines, told the United Press today that Japan is using all her energy in keeping informed of the movements of Russia, and would not dare to attempt a quiet mobilization of a citizen-soldier force in the Philippines, as she knows Russia is waiting for a chance to "swat" Japan at the first opportunity. He said that Japan has men scattered throughout the Philippines gathering information, just as the United States has in Japan.

The officer also stated that the Russian mills are working all the time at Vladivostok, piling up supplies for the army of half a million Russians massed in Eastern Siberia and ready to advance.

NIPPON WEARY OF ANTI- JAPANISM IN AMERICA

TOKIO, Feb. 16.—The Asahi, the most powerful paper in Japan, in an editorial today, says that Japan is tired of anti-Japanism in American politics, referring to the Hayes bill, and advocates a firm step on the part of Japan toward getting the right of Japanese to become naturalized Americans. The Asahi says that is the only permanent solution of the situation, and says such attacks as that of the Hayes bill is becoming wearisome.

Hayes Bill Favorably Reported

WASHINGTON, Feb. 16.—The exclusion bill introduced in the House by Hayes of California will soon be up for final action. It has been reported favorably by the committee on immigration. One clause reads to exclude all persons who under the provisions of the revised statutes of the United States, unless they are merchants, teachers, students or travelers for curiosity or pleasure. This refers directly to Asiatics.

BATTLE AT ATHENS IS NOW IMPENDING

Froops Occupy Historic City
and Climax of Long Enmity
Seems at Hand

CONSTANTINOPLE, Feb. 16.—Troops occupied Athens today, anticipating an attack by the Greek navy, which the army partisans believe will be the climax of the long standing enmity between the land and water forces of the country. A strict censorship of news has been inaugurated, indication that the situation is critical.

THE DAILY SAFE CRACKING

SALEM, Ore., Feb. 16.—Safe crackers early today blew the safe of the Salem, Falls City & Western railroad and escaped with a small sum. Bloodhounds are trailing them.

PERSONALITY

Take time and make occasions to inquire into the purposes of life; think on sound and basic principles. Emancipate yourself from all that is unreal, dogmatic, hysterical. Be natural—be yourself. Do not blight your soul with words or vows you cannot live up to. Realize that all men are needful of but one thing—kindness; and that what the world needs most to effect its salvation is simple sincerity in motives and actions. To bring these things about, you need to know, not believe. Repudiate that sort of faith which asks you to believe what you know to be false. We stand alone, we develop ourselves, though we are responsible to our fellow men for the sort of lives we live. Nothing is ever given to us—we create. Others cannot create good in us; God himself cannot. Through nature and men we get our lessons; this is the true revelation. The truth is in us. It is not controlled or dispensed exclusively by any organization or institution. Such ideas develop dependence and selfishness. Truth lives on independence; and it is universal, because it is the most personal thing in the world. Therefore prize your personality, and remember to keep it sacred.—David Leslie Brown in Cosmopolitan Magazine.

WOULD CLEAN UP BIG CITY

Boy Said to be From Laguna Beach Believed to be Insane

Los Angeles Times: Having soaked his mind full of accounts of robberies and burglaries, supplemented with moving picture portrayals of stage hold-ups, Hugh B. Foote of Laguna Beach concluded that he would "clean up" Los Angeles last night. He started in by taking up the carpets in the apartment house of Mrs. Elsa Murray, at No. 320 North Broadway, after having informed that astonished landlady that she was to lose no time in bringing on a full equipment of soap, mops and other scrubbing paraphernalia.

Very much frightened by the unexpected housecleaning, Mrs. Murray sent a riot call to the police station, which was answered by Detective Thomas Rico. Foote picked up a suit case, crammed full of newspaper clippings of various crimes, and readily accompanied the officer to the station.

He told Police Surgeon Wiley that he was in San Bernardino when he read of so much crime in this city that he made up his mind to come down and "clean up" the town.

The boy, who is the son of a well-to-do ranchman at Laguna Beach, will be examined as to his sanity.

He Celebrated

Evidently Biceante Barajaz thought the arrival of a thirteenth baby at his house on the thirteenth of the month was cause for celebration. At any rate he celebrated, and this morning he was before City Recorder Willson on a charge of "drunk." He paid a fine of \$5. Barajaz lives on the sewer farm. On Sunday his wife presented him with a son, the thirteenth child to be born to her.

If You Read This

It will be to learn that the leading medical writers and teachers of all the schools of practice recommend, in the strongest terms possible, each and every ingredient entering into the composition of Dr. Pierce's Golden Medical Discovery for the cure of weak stomach, dyspepsia, catarrh of stomach, "liver complaint," torpid liver, or biliousness, chronic bowel affections, and all catarrhal diseases of whatever region, name or nature. It is also a specific remedy for all such chronic or long standing cases of catarrhal affections and their results, as bronchitis, throat and lung disease (except consumption accompanied with severe coughs), is not so good for acute colds and coughs, but for lingering, or chronic cases it is especially efficacious in producing perfect cures. It contains Black Cherry bark, Golden Seal root, Bloodroot, Stone root, Mandrake root and Queen's root—all of which are highly praised as remedies for all the above mentioned affections by such eminent medical writers and teachers as Prof. Bartholow, of Jefferson Med. College; Prof. Jare, of the Univ. of Pa.; Prof. Finley Ellingwood, M. D., of Bennett Med. College, Chicago; Prof. John King, M. D., of Cincinnati; Prof. John M. Scudder, M. D., of Cincinnati; Prof. Edwin M. Hale, M. D., of Hahnemann Med. College, Chicago, and scores of others equally eminent in their several schools of practice.

The "Golden Medical Discovery" is the only medicine put up for sale through druggists for like purposes, that has any such professional endorsement—worth more than any number of ordinary testimonials. Open publicity of its formula is the best possible guaranty of its merits. A glance at this published formula will show that "Golden Medical Discovery" contains no poisonous, harmful or habit-forming drugs and no alcohol—chemically pure, triple-refined glycerine being used instead. Glycerine is entirely unobjectionable and besides is a most useful agent in the cure of all stomach as well as bronchial, throat and lung affections. There is the highest medical authority for its use in all such cases. The "Discovery" is a concentrated glycerine extract of native medicinal roots and is safe and reliable. A booklet of extracts from eminent medical authorities, endorsing its ingredients mailed free on request. Address Dr. R. V. Pierce, Buffalo, N. Y.

Which One is the Dummy?

The above question is perhaps the one most frequently asked, and a list of the many queries about Ami would reach from now to tomorrow night. Many, many scientific and mechanical and physical explanations are given in support of the firm belief that the Ami shown in the Rowley Drug Store window is an automatic figure, and that the same is used at both the shows given every night at the Temple Theater, by Wilbur, the ventriloquist, who winds up the dummy and causes it to go through all kinds of jerky motions, until the finish, when the dummy is quickly replaced by Ami, who is dressed exactly like it, the change being so quickly affected that few can detect it. Such is the belief of many, and to give everyone a chance to see Ami, Manager Roberts will keep him up to and including Friday night, with a big new show beginning Thursday night.

Miss Helen Goff

The Los Angeles Times has the following to say in regard to Helen Goff, who comes as the last event on the Star Entertainment Course, in Spurgeon's Hall, Friday night, Feb. 18:

A most delightful musical was enjoyed last Saturday afternoon by the members of the Saturday Afternoon Club, an organization which stands for the best in music in this section, and whose programs, given weekly, are always quite artistic, as well as educational.

Among the artists engaged to fill this program was Miss Helen Goff, dramatic soprano. Miss Goff's interpretation of Grieg's "The Water Lily" and her excellent rendition of "Sweetheart, Thy Lips Are Touched With Flame," by Chadwick, scored another triumph for this beautiful young prima donna. The remainder of her numbers were rendered with a dash and artistic finish.

QUIZZES FOR CENSUS ENUMERATORS TO GIVE

Must Find Out all About the Foreign
and the Number of Ventures On
Sea and Matrimony

WASHINGTON, D. C., Feb. 16.—What the census enumerators are required to learn regarding the place of birth of native-born and foreign-born persons, and other personal facts concerning the latter class, in taking the Thirteenth United States Census, beginning April 15 next, is fully set forth in the printed instructions prepared by the United States Census Bureau to guide them in filling the population schedule. It is pointed out that all the questions relate only to conditions existing on April 15, "Census Day."

On the subject of place of birth of a native-born person the instructions state if the person was born in the United States the enumerator is to give the State or Territory (not city or town) in which born. A person born in what is now West Virginia, North Dakota, South Dakota, or Oklahoma should be reported as so born, although at the time of birth the particular region may have had a different name.

Relative to conjugal condition, the enumerators are to report whether the person is single, married, widowed, or divorced. Married persons are to be asked if they have been married before. If the present marriage is the first, the fact is to be indicated by the sign "M 1;" but if it is the second or subsequent marriage, then the enumerator is to write "M 2," meaning married more than once.

The question calling for the number of years of the present marriage is declared by the Census Bureau to apply to persons reported as married, and the answer should give the number of years married to the present husband or wife. Thus a woman who may have been married for 10 years to a former husband, but has been married only 3 years to her present husband, should be returned as married 3 years. The number of years entered should be the number of completed years. A person who on April 15, the "Census Day," has been married 3 years and 11 months should be returned as married 3 years. For the person married less than 1 year, the entry is to be "0," meaning less than a year.

In the case of persons speaking Polish, or reporting that they were born in Poland, which is no longer an independent country, the enumerator is to inquire whether the birth place was in what is now known as German Poland, or Austrian Poland, or Russian Poland, and he must write the answer accordingly as Poland (Ger.), Poland (Aust.), or Poland (Russ.).

If the birthplace reported is Canada the enumerator is required to ask whether the person is of English or French descent and write Canada (Eng.), or Canada (Fr.), according to the answer.

The question calling for the year of immigration to the United States applies to all foreign-born persons, male and female, of whatever age. It should be answered, therefore, for every person whose birthplace was in a foreign country. The enumerator must enter the year in which the person came to the United States. If he has been in the United States more than once,

the year of his first arrival is to be stated.

The inquiry whether naturalized or alien applies only to foreign-born males 21 years of age and over. It does not apply to females, to foreign-born minors, or to any male born in the United States. If the person was born abroad, but has become a full citizen either by taking out second or final papers of naturalization or through the naturalization of his parents while he was under the age of 21 years, the enumerator is to write "Na" (for naturalized). If he has declared his intention to become an American citizen and taken out his "first papers," the enumerator is to write "Al" (for alien).

The inquiry as to the ability to speak English applies to all persons 10 years of age or over. If English is spoken, the enumerator must write "English" in the proper column. If the person enumerated is not able to speak English the enumerator is required, in such cases only, to write out the name of the language spoken, as French, German, Italian, etc. If more than one language is spoken by a person who, however, does not speak English, then the enumerator is to write the name of that language which is his native language or mother tongue.

A New Story About Lincoln

Perhaps the most distinguishing quality of Lincoln's character was the simplicity of his mind. It was, however, not the simplicity of ignorance or lack of thought, but the simplicity of wisdom. He had so trained himself that he could see plainly the great principles—the simple principles—underlying not only everyday matters, but questions of statesmanship and even deeper speculations.

An excellent story illustrating this, though in the nature of things it can not be entirely new to all readers, so clearly displays at once his acuteness of mind and his kindly human feeling that it is well worth repeating.

One winter night, when a sleet storm was beating directly upon the front of the White House, Lincoln, who was sitting within, saw through the glass doors a sentry who had been stationed on guard. Although the man was trying to protect himself as best he could in his old blue coat, yet the contrast between the soldier's discomfort and the warm, comfortable atmosphere within made the president uneasy. At length, unable to stand the sight, Lincoln arose, opened the door, and speaking to the sentry, invited him to come inside.

"Impossible, Mr. President," the soldier answered. "I was stationed here and am on guard."

"But," said Lincoln, "you can certainly guard the door just as well standing inside. Come in."

"Thank you," said the soldier, "but I can not leave my post."

Lincoln for a moment retired, baffled, but in a few moments he repeated his kindly invitation, with the addition that he would be responsible to the soldier's superior officer. Again the soldier thanked him and refused.

But a further period of reflection brought to the president a new idea, and, going the third time to the door he opened it and said:

"See here; it occurs to me that I am commander in chief of the army and navy, and I order you to come inside."

There was no resisting the order of the commander in chief and the soldier obeyed. Whereupon Mr. Lincoln retired satisfied.

TWO DAYS' SESSION OF BIBLE INSTITUTE HERE

The Bible Institute of Los Angeles, is planning to hold a two days' conference in Santa Ana, beginning Friday evening of this week, with two sessions on Saturday—afternoon and evening—and one session on Sunday afternoon. Many of the leading institute workers, such as Rev. T. C. Horton, Rev. R. A. Haddon, Rev. J. R. Pratt, Rev. J. H. Sammis, Rev. R. L. Tucker, and Mark Lev, the converted Jew, will be present and will speak at the different sessions. All the meetings will be held in the Immanuel Baptist church, corner of Sixth and French.

The work of the institute is wholly interdenominational and those managing the meetings hope that the members of all the churches will attend and co-operate. Immediately following this institute, Rev. J. R. Pratt will begin evangelistic meetings at the same place, preaching every afternoon at 3 o'clock, and every evening at 7:30.

A SIMPLE QUESTION

Santa Ana People Are Requested to Honestly Answer This

—Is not the word of a representative citizen of Santa Ana more convincing than the doubtful utterances of people living everywhere else in the Union? Read this:

E. O. McKinney, 824 East Third street, Santa Ana, Cal., says: "Doan's Kidney Pills were especially suited to my case and in view of my experience I am glad to recommend them. For a year and a half I suffered from pain in my sides and over my right kidney. It was a throbbing or beating pain and it seemed as if a knife were being thrust into me. I thought that the trouble was caused by heavy lifting but I was unable to get relief from the remedies I took. Acting on the suggestion of a party who had used Doan's Kidney Pills, I procured a box at Dean's Drug Store. Finding relief from their use, I continued taking them and it was not long before the pain had ceased. The passages of the kidney secretions were also regulated and my kidneys were restored to a normal condition. I have had no symptoms of kidney complaint since and therefore feel justified in giving Doan's 'Kidney Pills my endorsement.'"

SUSPENDED SENTENCE GIVEN RIOS SANCHEZ

Rios Sanchez, charged with disturbing the peace of W. V. McKenzie on South Main street, was given a ten days suspended sentence by Justice Smithwick this morning. McKenzie's offense consisted of a strenuous attempt to reach a telephone that he might telephone to Sheriff Lacy to come to his place to quell a family row. Sanchez was intoxicated, and McKenzie did not care to have the man come into his house. Sanchez insisted. McKenzie used the telephone and called City Marshall Edwards.

THAT "EASTERN QUESTION"

Once in a while the rulers of Europe take their eyes off each other long enough to take an anxious look toward the Orient. This happens to be one of those times. That old "eastern question" has again arisen to haunt them. Its aspect is not as threatening as on many former visitations, and so far there is nothing serious. It is only just a reminder that the specter has not yet been finally laid. A little mixup between Turkey, Greece and Crete is the occasion.

The well informed have not failed to notice that in late years there has grown up another feature of the eastern question, or rather that it has separated itself into two parts—the "near eastern" and the "far eastern" questions. The former has particular reference to what is known as the Balkan states and Western Asia, which has been the nightmare of European diplomats for more than a century. The other has reference to that part of Asia that can now be said to be overshadowed by Japan, but in which other nations have extensive interests. This part of the eastern question can perhaps be best designated as "the yellow peril." It lies nearer to us than the other and is getting nearer every year.

When the Panama canal gets into full operation this coast will become the place where the east and the west will meet. It will be the world's "cross roads," so to speak, and this is what is meant by the remark that the "far eastern" question is constantly drawing nearer to us. By and by it will be to us the "near eastern" question and the other the "far eastern" question.

So far it is mostly a question of commerce, despite the cocky airs of Japan, but if England and Germany continue to pursue the hog policy, it may become more serious. We have not come to that bridge as yet, however, and it is to be hoped we never will.

HIS STRONG RIGHT ARM

A. R. Peacock, one of Carnegie's proteges and now a Pittsburg millionaire, has a way all his own of dealing with his defaulting agents. There's no appeal to the law of the land for him. He pursues a more speedy and effectual way.

In fact, so far as such cases are concerned, he is a law unto himself. In the most summary manner he renders judgment and issues execution without resorting to the usual proceedings. This he at once carries into effect by virtue of his strong right arm, before an appeal and stay of execution can be resorted to. After this manner he has disposed of the cases against two of his employees who had squandered in riotous living the neat sum of \$250,000 for him.

Politely inviting one of them into his room, he locked the door and then proceeded to blacken both his eyes, smash his nose and generally to perform that ceremony known in polite circles, as "pushing in his face." After this had been done in the most approved style, he gently kicked what was left down stairs and the incident was ended so far as that one was concerned. A like service was rendered for the other delinquent, at the end of which he declared all demands satisfied.

It must be admitted that this method of settling such accounts has its advantages, and again were the relative physical conditions reversed, it might have its drawbacks. The execution would in such a case be served on the wrong party to the action, and thereby justice go unsatisfied. On the whole it is better for ordinary people to stick by the old way.

A New York woman having obtained judgment against an actress for \$75,000 as damages for alienating the affections of her husband, the question now recurs was he worth the price. There may be something peculiar in this particular case, but as a general proposition any hubby whose affections for the wife of his bosom are lying around so carelessly as to render their larceny possible is not worth his board and clothes.

—See Turner for fire insurance.

KEEP TAB ON THE PROBE

The many investigations now being conducted as to the high price of food should be diligently followed by all who would know the truth of it. As heretofore stated, the men who are responsible for these prices will themselves institute pretended investigations and try to discount the facts as they actually exist by alleged facts that do not exist. Here is a pointer. Prices are being raised in New York in the face of the boycott going on there, the argument being that the rise is something that cannot be controlled. But the argument proves too much, if anything at all. Is it reasonable to suppose that the prices would of their own accord, rise at this particular time when consumption is being seriously curtailed by an organized boycott? Not on your life! They are being manipulated by the very men who have been at it all the time, with the fool idea of making us believe that prices will continue to rise in spite of fate.

By the way the house committee at Washington has been looking into conditions in the capital city, and it is found that a gang of wholesalers have succeeded in rounding up all farm produce, compelling the farmer to sell to and the retailer to buy of them. In this way, they have been able to boom prices since 1897 up to as high as 150 per cent in some cases. The farmer doesn't get the benefit of this continual rise in the cost to the consumer, neither does the retailer. It goes into the pockets of the men who stand between the two and dictate prices to both. There you have it in a nutshell, and that is just what is happening on this coast.

The Anti-Saloon League of Chicago having planned a hundred thousand dollar campaign against the Royal Arch the latter bunch of booze promoters will have to get a hustle on. And they will all right in the sum of a million or more if necessary. They know just how it is done.

The last heard of Dr. Cook he was on his way again to the north pole, this time getting a tab on Peary's "data."

The Political Watchtower

Just at present the Republican nomination for county treasurer seems to hold the boards. A couple of weeks ago C. L. Conway of Orange, declared his intention of running for the nomination. About that time it was talked that H. D. Connell of Santa Ana would run. Then all was quiet for a time. C. P. Pann of the lowlands, looked over the ground and decided to take a whirl at Joplin's job. He has not yet gone actively into the fight. Yesterday there was talk that Jerome Fulson of Garden Grove, would be asked to run for the nomination. Today comes J. C. Metzgar of Santa Ana, with the announcement that he would be in the race, and the announcement was no more than made before his petition was being circulated. At the same time word came that Connell would not be a candidate.

J. C. Metzgar of Santa Ana today took out nomination papers and entered the race for the Republican nomination for county treasurer, a position he is well qualified by lifelong training to fill. Metzgar came to Santa Ana nine years ago from Uniontown, Pa., and has been closely identified with many of the forward movements in this city ever since his arrival. He is an energetic, capable young man, and one who has hosts of friends, all of whom will stand by him in his fight for the treasurership. His business has been that of a real estate dealer, the buying and selling of real estate. He has never before been a candidate for public office, and has held no public office except that of a member of the city board of health.

LOS ANGELES, Feb. 16.—An aviation club house, aeroplane shed and repair shop, costing \$6500, and a flying machine course of three and one-half miles, are embodied in plans adopted last night, at a conference between the Aero Club of California and officials of the Los Angeles Motor-drome Company. An agreement was signed which guarantees for Los Angeles one of the finest aerodrome courses in the world, and makes possible the holding here of international aeroplane meets.

SENATE PASSES BILL TO END WEST POINT HAZING

WASHINGTON, Feb. 16.—A bill, not long in its text, but specific as to its meaning, and intended to settle once and for all the whole question of hazing at West Point Academy, was passed yesterday by the Senate without a word of discussion and without aye or nay vote being called for. It directs the superintendent of the academy to make regulations stopping hazing, and specifies that these regulations shall embody a clear and concise definition of what constitutes hazing, so worded that there may be no doubt whatever, and prescribes dismissal, suspension, or other adequate punishment, for infraction of the regulations.

To prevent appeals to Congress for reinstatement it is provided that no cadet shall be reappointed to the academy, nor eligible for appointment as a commissioned officer in any branch of the military service until two years after the graduation of the class, of which he was a member when dismissed.

NEW ALHAMBRA SCHOOL WILL BE OF BLUE BRICK

LOS ANGELES, Feb. 16.—Frederick Noonan is preparing the working drawings for a two-story, fourteen-room brick school building, 165x68 feet in size, for the Alhambra school district. The building will be equipped with all the latest school conveniences. It will have exterior facing of blue brick.

COMMISSIONERS CONFIRMED

LOS ANGELES, Feb. 16.—The city council has confirmed the appointment of W. D. Stephens and Major H. T. Lee as water commissioners, also the appointment of General G. H. Burton as civil service commissioner. Mr. Stephens will fill the unexpired term of General M. H. Sherman, who was removed recently, while Major Lee will fill the unexpired term of J. J. Fay, former president of the board.

MISS ELKINS SHOOTS SELF—MAY RECOVER

KANSAS CITY, Feb. 16.—Miss Agnes Elkins, daughter of Senator Elkins, shot herself above the heart, in a local hotel today. It is reported that her father's refusal to allow her to go on the stage has caused her much chagrin. Miss Elkins has a chance to recover.

BATTLING NELSON SAYS WILL BEAT UP WOLGAST

SAN FRANCISCO, Feb. 16.—Batling Nelson has announced that he would give Wolgast the worst beating possible on account of Wolgast's boasting. He said for the others he had trained simply to win. For Wolgast he is in training to beat him up. Nelson means it, as the fighters are enemies.

SNELL'S WILL BROKEN ESTATE GOES TO HEIRS

SPRINGFIELD, Ill., Feb. 16.—The Illinois Supreme Court today broke the will of the eccentric millionaire Col. Thomas Snell, who left his rich estate to a young woman of his acquaintance. The court ordered the estate to be divided among the heirs. This is a victory for Snell's son Richard, whom the instrument cut off with a pittance.

OLD LANDMARK GIVES PLACE TO NEW BUILDING

POMONA, Feb. 16.—Plans have been completed an dwork will soon begin on the erection of a two-story brick block for Midgley Bros., on West Second street lot formerly occupied by the Tilden block. The old building was one of the oldest landmarks in Pomona and was wrecked several months ago to make room for the new structure.

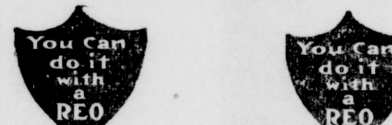

ANOTHER ARTESIAN WELL FOR IMPERIAL

EL CENTRO, Feb. 16.—Imperial Valley settlers again rejoice because of the discovery of artesian water. Word was received here today announcing the strike of a good artesian flow of sweet water in a four-inch well on San Felipe townsite, section 8, township 13, range 10, at a depth of 760 feet. The well is not cased, but the water flowing freely over the top of the hole.

PIMPLES

"I tried all kinds of blood remedies which failed to do me any good, but I have found the right thing at last. My face was full of pimples and black-heads. After taking Cascarets they all left. I am continuing the use of them and recommending them to my friends. I feel fine when I rise in the morning. Hope to have a chance to recommend Cascarets." Fred C. Witten, 76 Elm St., Newark, N. J.

NEW REO ATTRACTS

Dealers Delighted With Efficiency of 1910 Model—Cups Taken to Show

According to eastern reports the Reo exhibit of R. M. Owen & Co., is making a "big noise" at the Chicago show. One of the strong and attractive features of the exhibit is the chassis of the new model four-cylinder Reo. The motor is kept running constantly and is so glazed and illuminated that its inner workings may be readily seen by visitors.

Another unique feature is a pile of more than 800 telegrams from Reo dealers relative to their experience with the new model four-cylinder Reo "35." The uniform testimony of each Reo dealer is that the model far exceeds expectations of power, reliability, economy and all-round efficiency on hills and rough roads and through mud, slush and deep snow.

Leon T. Shettler, who left last Tuesday for the Chicago show took his Ferris and Portola cups to display at the Windy City exhibits. The local Reo dealer is jubilant over the showing he made last year. His books show the firm paid \$21,425.03 in freight on autos and parts in 1909.

Society

Coming Colonial Social

Much interest is being shown in the Colonial social to be given on next Monday evening, Feb. 21, at I.O.O.F. Hall, by the Ladies' Canton. Not only will the social attract a large patronage because the Canton ladies are famous as entertainers, but because of the object of the social, which is to raise funds for the entertainment of the delegates to the grand encampment of the I.O.O.F. to be held in Santa Ana next October.

The ladies will devote much effort toward making the affair of next Monday night a most attractive one, in both costume and entertainment. That it will be a delightful social function is assured.

Enters Cumnook School

Miss Anna McFadden has entered Cumnook School of Expression and Physical Training, going to the city this morning to join her classes. After this week Miss McFadden will be a resident pupil at Cumnook, thus getting the advantage of its pleasant home life and the beautiful environments. An increasing interest is being evidenced in Cumnook School by Santa Ana people.

Sunshine Society Meeting

The Sunshine Society met yesterday at the home of Mrs. Helen Barton, the president of the society. At noon a royal turkey dinner, with all the good things that go with it, was spread for the guests, covers being laid for nine. During the dinner, Mr. Buell, father of the hostess, re-

galed the guests with phonograph selections.

At the business meeting of the afternoon Mrs. Barton, who is soon to remove to Colegrove, presented her resignation as president of the society. Mrs. Clyde Bishop was elected to the vacant office. The next meeting of the society will be with Mrs. S. H. Finley at her Fourth street home.

To Cement as They Go

Newport News. The Balboa Oil Company has decided to put down a new well near the site of its present well and to profit by experience and shut off each strata of water as it is struck. There is no doubt about there being a great amount of oil under the Newport field, but the drillers have as yet been unable to shut off the enormous water pressure when the wells have been finished. From now on the water will be cemented off as soon as it is struck in all the wells, and in this way it is thought the difficulty can be overcome.

NEW YORK, Feb. 16.—J. P. Morgan, the financier, sailed on the liner Cedric for Mediterranean ports today for a short vacation. He boarded the vessel at a freight port to escape the newspaper men. He didn't escape them and finally fled over boats and trunks and disappeared in the hold.

"Contributory Negligence"

(From the New York Churchman.)
The shocking injustice that is done by applying the old English common law to modern industrial conditions in case of accident to an employee was glaringly illustrated the other day by the New Jersey reform leader, Senator Colby, in telling of an incident that had come to his knowledge. A girl working in a factory had been told by a fellow employee that unless a defect were remedied in the machine at which she worked, she was liable to lose her arm. Fearing discharge, she yet mustered courage to tell the proprietor of what she had learned. He told her that she was not employed to tell him how to run his business, and she went back to the machine that was her living. This law regards as the exercise of "personal freedom" and an instance of "liberty of contract." The machine did as she feared it would. She lost her arm. She sued the employer for damages. The defense was "contributory negligence," and the proof of it that she had told the employer that the machine was out of order. This was regarded as conclusive, and she could recover nothing.

Collier's Weekly, which reports the story, may well ask if there is any more thoroughgoing injustice done in the name of justice than this? England has long outgrown this interpretation of the law. On the continent they never had it. Other countries have devised systems that accord with ordinary human rights. Who is preventing the introduction of such a system here?

All Kinds

Mrs. Pankhurst, the militant suffragette, praised at a dinner at the Colony Club in New York, the American department store.

"At the same time," she said, "you are not, in your department stores, such really 'universal providers' as our London stores. There you get everything—positively everything."

"I know a lady who said to a London department store assistant once: 'Where is the Brussels counter?' 'Carpets, sprouts or points?' the assistant asked."—Washington Star.

"GET THE OTHER FELLOWS' BUSINESS" IS STUBBS' IDEA

NEW YORK, Feb. 16.—"Competition is taking the business the other fellow has," is an epigram made by J. C. ALL STOMACH MISERY ENDS

Indigestion, Gas, Heartburn or
Dyspepsia Go In Five
Minutes

—If you had some Diapepsin handy and would take a little now your stomach distress or indigestion would vanish in five minutes and you would feel fine.

This harmless preparation will digest anything you eat and overcome a sour, out-of-order stomach before you realize it.

If your meals don't tempt you or what little you do eat seems to fill you, or lays like a lump of lead in your stomach, or if you have heartburn, that is a sign of indigestion.

Ask your pharmacist for a 50-cent case of Pape's Diapepsin and take a little just as soon as you can. There will be no sour risings, no belching of undigested food mixed with acid, no stomach gas or heartburn, fullness or heavy feeling in the stomach, nausea, debilitating headaches, dizziness or intestinal griping. This will all go, and, besides, there will be no undigested food left over in the stomach to poison your breath with nauseous odors.

Pape's Diapepsin is a certain cure for out-of-order stomachs, because it prevents fermentation and takes hold of your food and digests it just the same as if your stomach wasn't there.

Relief in five minutes from all stomach misery is at any drug store waiting for you.

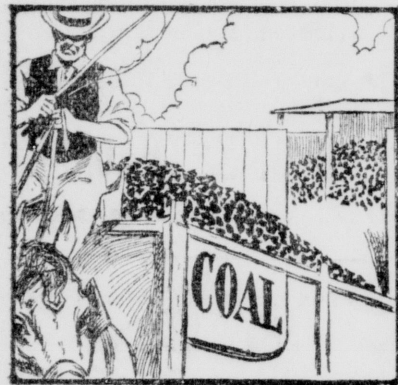

These large 50-cent cases contain more than sufficient to thoroughly cure almost any case of dyspepsia, indigestion or any other stomach disturbance.

THE FOUNDATION OF FORTUNES

Is Suburban Real Estate

The Greatest Land Opportunity in Southern California

The foundation or most of the great fortunes of this country was laid by investments in acreage property adjoining or near some growing town or city.

Much Property increases in value from a few hundred dollars per ACRE to a few Thousand Dollars per LOT, while you are farming it at a good profit on the price of its cost.

This Land will grow a Great Variety of Crops Profitably

The James McFadden Ranch is Exactly This Kind of Property

The Climate the Best in the World—only ten miles from the Seashore

It lies adjoining Santa Ana on the South, half way between the Sugar Factory at Delhi and the center of the City of Santa Ana. It is already town lots, but you can buy it at acreage prices, with water rights and raise big crops on it while you wait for the city of Santa Ana to annex it and South Santa Ana and the Sugar Factory and make you a fortune.

OUR WASHINGTON LETTER

WASHINGTON, Feb. 12.—First and foremost in the requirements of your holder of public office in Washington is—he must be known by all. Second and next to foremost—he must know his Washington, and its rigid official etiquette.

Without these requirements he is incomplete, for the "folks back home" demand both, and will not be satisfied without them. And from the minor interest of the clerk to the President to the clerk to the President, the "folks back home" respect for the "folks back home." For the "folks" to discover that "our official,"—he be Representative, or doorkeeper in the Bureau of Printing and Engraving—is not as widely known in Washington as he is in Kokoma—which, of course, he is not—is the forerunner of disaster.

Over in the Treasury of the United States is a dapper, college looking sort of chap, with a pleasant smile. He is no unimportant personage, either, for a few weeks ago he signed a receipt for some billions of dollars—all that the United States possessed at that time—which were turned over to him for safe keeping. His name is Lee McClung, and he is one of that gallant troop of Yale men who bravely followed one William Howard Taft to Washington. Better than that, he is Treasurer of the United States.

One bright, cheery winter morning recently, McClung started for the White House with two dapper Yale men, to present them to "Big Bill" with the compliments of the New Haven institution.

The presentation was accomplished with much eclat, and "Bill" was in a jovial mood. The Yale men were much impressed with the importance of United States Treasurer McClung.

But alas, the ubiquitous newspaperman spoiled everything—that is, he started to spoil everything, and the Treasurer himself finished the job. For the newspaper man had never seen one Lee McClung before, and rather suspected that he might be a "malefactor of great wealth." He therefore approached the party as they were leaving the Executive offices and in a most diplomatic manner demanded to know their business. Whereupon McClung gracefully told

of his mission and introduced his friends.

"But what is your name?" queried the newspaperman, and he immediately became the cynosure of three pairs of eyes. The eyes of one McClung flashed dismay, and impatience, while his companions gazed from the newspaper man to McClung with profound astonishment. McClung hesitated, hemmed and hawed a moment or two, and finally burst forth.

"I am the Treasurer of the United States!"

The interview terminated abruptly. But the troubles of the Treasurer were by no means over. He strode forth from the Executive offices followed by his companions, and turned to the right, thinking that he was going toward the North, or Great Entrance of the White House. But in his hurry he had turned to the right too soon, and he was stopped at the entrance to the White House kitchen by a bustling policeman, who yelled:

"Here, where are you going? Get out of there." For White House policemen live in a sort of expectant dream of anachists and

tramps. And the policeman, like the newspaperman, knew not the Treasurer.

McClung grasped his two Yale friends by the arm, and ignominiously followed the white House milk wagon out of the narrow driveway, and down the long path to Pennsylvania Avenue.

The effectiveness of modern methods of fighting disease, and, at the same time, the danger to a community in which cholera makes its appearance, were both thoroughly demonstrated in a recent case in Cebu, one of the Philippine Islands.

If prompt measures had not been taken it is possible that a pandemic of cholera would have taken place among the residents of the island, numbering 800,000 people, and thickly settled.

The last known case of cholera in Cebu occurred more than a week prior to November 12. On November 13 there were 10 cases reported; the succeeding day 43 cases; the next day 44 cases, and the following day 73 cases. The victims practically all

lived in one section of the city, and the water supply of this section at once came under suspicion.

The trouble was soon located in several wells. Most energetic measures were taken; the water in the wells of the infected district was made into a three per cent solution of carbolic acid, and this solution was then pumped out and distributed over as large a section of the ground in the neighborhood of the wells as possible. After this the wells were closed; the sick were isolated in rapidly improvised hospitals, public closets were constructed, and these, as well as private closets, were regularly disinfected; a house-to-house inspection was made; distilled water distributed, and thorough disinfection of all the houses in the infected district carried out. An immediate decline took place in the number of cases, until on November 21 the number had fallen to 5 cases per day, and the trouble is now stamped out.

LOS ANGELES PRODUCE MARKET

Yesterday was the last day for ducks. Shipments from neighboring territory and Imperial Valley were received and marketed as rapidly as possible to come inside the time limit fixed by law. Wild geese were the heaviest shipment of game of any kind. They came from the San Joaquin and Imperial Valleys, in large quantity. There is no season limit on geese, and they will hold the entire market in game birds until it becomes too warm to shoot them. They are bringing from \$4 to \$6 a dozen at the present time. Receipts of rabbits were larger than usual. Cotton-tails were in plentiful demand. Fish were more plentiful than for some time past. Small fish were in special evidence. Heavy catches of sardines at Redondo, of king fish at Newport and smelt near Port Los Angeles, helped to swell the supply. Halibut and cod were more plentiful than other large fish.

The feature of the egg market was the cutting of prices on storage stock. Dealers were so anxious to sell that they dropped the jobbing price on the best storage to 19 cents. Second-hand eggs were good sellers. Receipts were large, 350 cases. The market was steady under these, however, with a very heavy demand prevailing.

Creamery extra butter slumped again. This was due chiefly to the heavy receipts of the day, 33,334 pounds. The new price on best creamery is 72½ cents. There is more fresh creamery being made right along with the increased production of milk, which always comes at this season of the year. Other grades were in fair demand, but were unchanged in prices.

Eastern longhorn and daisy cheese were the only varieties which sold well. Prices were steady all through the list. Receipts were light, 840 pounds.

Potato arrivals totaled 3255 sacks. The market on spuds was fair. Oregon Burbanks, choice stock, were offered freely. Best fancy grades of potatoes are not over plentiful, with all the potatoes on hand at the present time. Sweet potatoes were selling down to \$2.35 in a jobbing way. Arrivals were 126 sacks of outside stock.

Onion arrivals were light. Offerings were small and the movement was regular. Bean receipts were 100 sacks. Pinks were the most active variety of the morning.

The price of bananas was down, this fruit selling from 4 to 4½ against the old price of 4½ to 5 cents a pound. Pineapples continued firm, and on the best fruit 6 cents was the price. Apples moved very well and there was a good call for citrus.

QUESTION AS TO THE TITLE

Do the Lees or the City of
Anaheim Control Strip
of Land?

Has the City of Anaheim any right upon a strip of land fifty-four feet wide, on the west side of property owned by Sarah and M. R. Lee? This question will be answered by the Superior court.

Sarah and M. R. Lee are plaintiffs in an action brought by them against the City of Anaheim to quiet title to the west fifty-four feet of a part of Vineyard Lot C-2, Anaheim. The complaint asserts that an undisturbed title rests with the plaintiffs, but that the city asserts it has a right to the strip for street purposes. F. C. Spencer is attorney for the plaintiffs.

The New Laurel Design

You will be interested in the superb examples of the Silver-smith's art which we are now displaying in Sterling Silver flat table ware of this new and most attractive design. Its severe plainness relieved merely by a graceful garland of laurel, gives an impression of richness and sumptuousness which will appeal to you. Very heavy and extra strong. And less expensive here than inferior ware elsewhere.

Do Not Forget About Your Umbrella

We will supply a new cover and frame for your old umbrella, and make the handle detachable by Hull's patent method, for about the cost of merely recovering elsewhere.

GOOD ROADS BOOST LIFE ON THE FARM, SAYS KNOX

WASHINGTON, Feb. 16.—Secretary Knox believes that the congestion of population in great cities is caused in large part by the lack of good roads in the country. He told the House Committee on Foreign Affairs that France was the best agricultural country in the world, because she had had good roads so long. Said he: "The agricultural population of France does not have to spend its money repairing vehicles and harness every winter."

WAR WAGED OVER RICH CHILDREN BY RELATIVES

LOS ANGELES, Feb. 16.—The death of Mrs. Julia Fletcher Bernard, sister-in-law of Booth Tarkington, the author, in Pasadena last Friday, has precipitated a family war for the guardianship of her three daughters, aged eight, six and five years. Each of the girls is heiress to \$250,000. The parents had been separated, but had been reconciled by letter, and Bernard was to have been in Pasadena on Feb. 20. He is now hastening westward to secure the children, and Mrs. Bernard's two sisters, Miss Hilda Fletcher and Mrs. May Fletcher, are already on the ground. Miss Helen Bernard of Los Angeles, has been made temporary guardian by Judge Rives.

SAN DIEGO WATER TO BE PAID FOR BY CUBIC FEET

SAN DIEGO, Feb. 16.—By an act of the city council, consumers of water hereafter will pay by measurement through meters. The rate is fixed at 7½ cents per hundred cubic feet. The old rate is 10 cents per 1000 gallons, which, city officials say, practically is the same thing. All flat rates are abandoned and no reduction is made for water consumed in large quantities.

NOT GUILTY IS VERDICT

Tracks and Heads of Rooster
and Turkey Failed to Con-
vict Rodriguez

A jury in the superior court yesterday brought in a verdict of not guilty in the case of Jose Rodriguez, charged with burglary. The specific accusation was that he entered a chicken yard owned by I. L. Collins and stole a certain Plymouth Rock rooster and a certain turkey. Isabel Muruato, who was caught in the act was sent to San Quentin for eighteen months after he had pleaded guilty. Rodriguez stood trial.

Collins, City Marshal Jernigan of Orange and Deputy District Attorney Finley were the chief witnesses for the prosecution. The evidence brought out by them against Rodriguez was purely circumstantial. Rodriguez's foot fitted a peculiar track found in the chicken yard, and Rodriguez was found at the house of Antonio Garcia, in whose yard was found the head of a Plymouth Rock rooster and the head of a turkey.

SHACKLETON COMING AND PEARY IS GOING

NEW YORK, Feb. 16.—Sir Ernest Shackleton, noted Antarctic explorer, will arrive from England March 25, going direct from New York to Washington, where he is to be the guest of the British ambassador, and is to meet President Taft.

Shackleton will be presented medals by the National and American Geographical Societies. Later he will lecture over this country. Peary will sail for Europe while Shackleton is here to receive medals and honors from foreign societies.

PACKING HOUSES RUN ONLY HALF CAPACITY

MONROVIA, Feb. 16.—Packing houses are running at less than half capacity. The exchange is forwarding on orders eighteen cars per week. As all shipments have been made at known prices, returns have so far been satisfactory to growers. It is believed the market will rapidly improve after March 1. To determine the frost damage a committee of exchange directors inspected every orchard in with the association and no frosted fruit is shipped under exchange brands.

10,000 TROOPS ENGAGE IN MANILA MANEUVERS

MANILA, Feb. 16.—Nearly 16,000 troops engaged in the army maneuvers which began here today. The defending army, the blues, are under General Brush, and the Reds, who are the invaders under Commander Tempin. The Blues are supposed to defend the coast between Subig Bay and Linagen Gulf. The actual engagement is expected on Friday.

He Was Good Mixer.
There used to be a popular minister in Indianapolis who was well known in Louisville. He was pastor of one of the leading churches of the city. He was built on the plan of the late Henry George, whose motto was, "I am for men." This Indianapolis preacher was what is called a "good mixer." One day he stopped in a blacksmith shop to chat with the workmen. During the visit a florid faced man of prosperous appearance came into the shop. He and the minister began chatting, but neither knew the other's line of business. They became good friends in a few minutes. Finally the florid faced man produced his card, which announced that he was in the saloon business on West street.

The Military Salute.

All salutes, from taking off the hat to presenting arms, originally implied respect or submission. Of military salutes, raising the right hand to the head is generally believed to have originated from the days of the tournament, when the knights filed past the throne of the queen of beauty and by way of compliment raised their hands to their brows to imply that her beauty was too dazzling for unshaded eyes to gaze upon.

The officer's salute with the sword has a double meaning. The first position, with the hilt opposite the lips, is a repetition of the crusader's action in kissing the cross hilt of his sword in token of faith and fealty, while lowering the point afterward implies either submission or friendship, meaning in either case that it is no longer necessary to stand on guard. Raising the hand to the forehead has also been explained as a sign that the weapon hand is empty and in an inoffensive position, but this reason does not seem so convincing as the others.

A Toothsome Revenge.

During the reign of Charles II., the age of gallantry, it was the custom among gentlemen when they drank a lady's health in order that they might do her still more honor to destroy at the same time some part of their clothing.

Upon one occasion Sir Charles Sedley was dining in a tavern and had a particularly fine necktie on, whereupon one of his friends to play him a trick drank to the health of a certain lady, at the same time throwing his necktie in the fire. Of course Sir Charles had to do likewise, but he got even, for not long after that, dining with the same company, he drank the health of a fair one, at the same time ordering a dentist whom he had engaged to be present to pull out a refractory tooth which had been troubling him. Every one else was obliged in this manner to mourn a molar.

Great Forests.

Canada owns a forest larger in area than the whole of England, Scotland and Wales all put together. The greatest length of Britain is 608 miles, and its greatest width 325 miles, while a Canadian forest in the Hudson bay and Labrador region is 1,000 by 1,700 miles in extent. Another big forest stretches from Alaska to Washington state. The Amazon basin, South America, comprises about 2,100 by 1,500 miles of forest, while Central Africa has a forest region 3,000 miles from north to south and of unknown width from east to west, and the pine, larch and cedar forests of Siberia are 3,000 by 1,000 miles in extent.

Logic.

"What—a boy of your age doesn't know the parts of speech?" exclaimed the schoolmaster.
"No, sir," replied the pupil.
"Haven't you ever heard of a noun?"
"Oh, yes, sir."
"Well, what comes next?"
"I don't know, sir."
"A pronoun," said the master. "Now remember that. Then comes the verb. Now what follows that?"
"A proverb, please, sir."—London Scraps.

Doing Very Well.

"How's your son making out in business?" asked the first capitalist.
"Very well, indeed," replied the other; "he's got a quarter of a million."
"Why, you started him with a million, didn't you?"
"Yes, and it's two months now since he started operations in Wall street."—Catholic Standard and Times.

A Choice of Calves.

The difficulties the early Virginian colonists had with their live stock is curiously illustrated by the fact that in the colony of Massachusetts Bay a red calf was cheaper than a black one, experience having shown that the former was more likely to be attacked by wolves owing, it was thought, to the wolves mistaking it for a deer.

Deceived.

Edith—You say old Mr. Goldley deceived Edith dreadfully about his age?
Gladys—Yes, poor girl! After they were married he confessed that he was only sixty instead of seventy-five.

Genuine Faith Cure.

Towne—Do I understand you to say that Spencer's case was really a faith cure?
Brown—Yes. You see, the doctor and the druggist both trusted him.

WORKED AS LABORER FOR TWO YEARS—SAVED \$459

ST. LOUIS, Feb. 16.—After working as a laboring man for two years, on a bet to prove that he could save \$400, Elmer E. Von Fleet, a wealthy resident of Elmira, N. Y., returned home today to collect his winnings as he saved \$459.

He laid his bet with a newspaper owner.

REINERT LOST \$500 IN THE DEAL WITH THE MAN HE SHOT

(Concluded on Page Eight)

property from Reinart to W. J. Cole. Under the settlement Rainey's mortgage holds. Since Loveless had paid another mortgage on the property, amounting to \$2000, Reinart came out \$500 behind on the deal so far as the records show. Aside from this Reinart is loser whatever it cost him to defend himself in the criminal trial and whatever it cost him to sue Loveless in the civil action.

At any rate the incidents are closed, for today Attorneys Scarborough & Forgy filed with the county clerk a dismissal of the civil action of Reinart vs. Loveless.
